Adopt a Veteran
Rural Cemetery,
Lowville, New York
Project**

As we point to the stones of granite with pride, a memorial to what our forefathers accomplished; it is with sadness and reverence also. It is because our forefathers have spent of their time, their lives and their energy that we have the civilization of today. We also find that our forefathers and the leaders of men in all crises have devotion, which might be termed patriotism.

The courage of the American soldier is unrivaled. Because of their devotion to a principle, they are willing to pay the price. The soldiers from Lewis County, New York handed down to us a heritage. Let us not waste that heritage, but take and keep it unsullied for the coming generations. In years past the men who wore the blue in the dark Civil war days did so that the nation might live, were paid tribute. The Civil war veterans of Lewis County are all gone for many years. Their final resting places in Rural Cemetery are mostly neglected today. For most a flag does not fly in recognition of the sacrifices they made for the United States of America. The Sons of Union Veterans of the Civil War Walter H. French Camp No. 17 would like to honor these men by placing a flag holder and United States Flag upon the final resting place. We are planning on repairing or replacing any broken or missing headstones as well as cleaning up the soldier's plot at Rural Cemetery. Your help is needed to help to purchase the flag holder, flags, and supplies needed for the project.

Our project thus far has identified the following Civil War soldiers at Rural Cemetery. If you should know of any other please contact us.
